

# The Voilier-Cargo

Eco-responsible shipping

# Your 0-CO2 cargo transport:

- ✓ A modern, reliable and optimised logistical solution.
- ✓ A tailor-made service.
- ✓ Competitive freight rates de-correlated from the price of the barrel, without BAF \*, over the long term.
- ✓ The experience of a shipowning logistics structure, specialised in sailing propulsion.
- ✓ Optimum low-carbon transport conditions.
- ✓ Access to an environmental reporting framework and the ANEMOS label.

*\*Bunker Adjustment Fees*

## The ANEMOS label

The ANEMOS label provides specifications for sailing certification. Labelled on each product, it offers end customers a unique voyage number to trace its course (GPS, weather, logbook, CO2 index).

## The 2019 “Early jumper” offer !

Discounts on the contract and on the ANEMOS branding.

Access to the “decarbonised leader’s” club.

Renewable contractual clauses.

Communication with signature, on the site and on board.
