

The Sailing Cargo Ship

Eco-sustainable shipping

Make a difference

Your CO2-free cargo:

- ✓ A modern, reliable and optimised logistical solution.
- ✓ A tailor-made service.
- ✓ Competitive freight rates de-correlated from the price of the barrel, without BAF *, over the long term.
- ✓ The experience of a shipowning logistics structure, specialised in sailing propulsion.
- ✓ Optimum low-carbon transport conditions.
- ✓ Access to an environmental reporting framework and the ANEMOS label.

* Bunker Adjustment Fees

The ANEMOS certificate

The ANEMOS scheme provides specifications for sailing certification. Labelled on each product, it offers end customers a unique voyage number to trace its course (GPS, weather, logbook, CO2 index).

The “Early jumper” offer

Discounts on the contract and on the ANEMOS branding.

Access to the “decarbonised leaders” club.

Renewable contractual clauses.

Communication upon signature, on the yard and on board.
